**USE OF DISTRICT COMPUTER SYSTEM**

Board of Education Policy Number 4527  
Adoption date: October 13, 1998

*The Board of Education considers access to its computer systems, including the Internet, to be a powerful and valuable educational and research tool, and directs the use of computers and computer-related technology in district classrooms and buildings solely for the purpose of advancing and promoting learning and teaching.*

*The use of school computers, software, network resources and/or the Internet for non-educational purposes such as for profit activity, personal business or illegal activity is prohibited. The use of all district computer systems and the Internet is a privilege, not a right.*

*The district's computer systems are district property to which users are permitted access. All users should have no expectation of privacy.*

*The Board of Education, through the Superintendent of Schools, or his designee, shall establish regulations governing the use and security of the district's computer systems. All users of the district's computer systems shall comply with this policy and those regulations. Failure to comply may result in suspension of access to the district's computer systems and/or other appropriate penalties.*

**TEACHER AND STAFF ACCEPTABLE USE AGREEMENT**

Access to the Internet on the School District's computer network is provided solely for educational purposes and research.

Each individual in whose name an access account is issued shall be responsible at all times for its proper use.

There are no rights to privacy when using the School District's computer network, the Internet and electronic mail.

I have read and understand the Arlington Central School District's Acceptable Use Agreement and agree to abide by its provisions.
