G.P.A./RANK

The GPA is used to determine class rank. Each course is assigned a factor, which is listed with the course title. The GPA is determined by the formula:

$$\text{GPA} = \frac{\text{sum of (grade x factor x credit) for each course}}{\text{total credits (excluding Pass/Fail courses)}}$$

DIPLOMAS

REPORT CARDS

Report cards are issued four times during the year. The grade shown at the end of each report period is the student's grade for that marking period only and is a reflection of both class work and tests.

The final course average entered on the permanent record is the combination of the class average (4/5) and the final examination (1/5). The report card shows the final examination grade, the Regents examination grade, if applicable, and the final course average in each course.
