Arlington Education Foundation Payroll Deduction Program

Please consider including AEF in your charitable giving. Your support allows AEF to further invest in Arlington's educational excellence by providing funding for both the staff and the students who make Arlington a special place. Thank you to everyone who enrolled in the AEF payroll deduction program in the past 4 years. As a result, over $4,000 was raised in support of AEF's programs in our schools. We truly value your contribution and confidence in our efforts.

"As the Executive Principal at AHS, and now as the Director of Secondary Operations for the District, I witnessed the tremendously positive impact that the Arlington Education Foundation has had on our teachers and our students. Whether through funding science & technology initiatives or awarding scholarships, the Arlington Education Foundation has always supported our entire school community." ~ John Orcutt

AEF Funding Examples

STEAM Labs

"A space where students can experience integrative learning in science, technology, engineering, arts, & mathematics. The labs also allow for teacher-created learning experiences that support the elementary science curriculum and also extend student creativity and critical thinking."
~ Julie Shook, *ASM 2nd Grade Teacher*

District Science Room

"A unique cross-age experience that connects high school students with elementary students to provide hands-on, collaborative science learning."
~ Caroline Ferrieri, *BES 1st Grade Teacher*

Maker / Collaborative Space in AHS Library

"In the AHS Library Makerspace, participants think, collaborate, and create while undertaking student-initiated projects spanning disciplines from sewing to STEM."
~ Lucy Miller, *Librarian, Arlington High School*
