

Overlook 100 Day Plan

Below you will find the 100 Day Plan for our school. Planning for specific goals on a short cycle leads to more targeted instruction, intervention and enrichment opportunities for students. For the start of the 21-22 school year, we will be closely monitoring the goals listed below:

- Increase our Daily Average Attendance to at least 95%. In order to learn, students need to be in school with their peers and teachers. Students who miss more than 10% of school starting in kindergarten, are likely to have difficulties learning to read and have lower attendance rates throughout their schooling.
- In the area of literacy, 95% of Kindergarten students will be able to identify 20 or more letters by Feb 1st. The number of 1st grade students below grade level will decrease to 44.8% and 2nd grade will decrease the number of students below grade level to 52.7%.

In February, we will revisit these goals, report out on our progress towards meeting them, and set new goals for the remainder of the year.
