

# Arlington Education Foundation

February 14, 2023

Dear Arlington High School Families,

The need for scholarship donations to help students attend college is greater than ever. In 2022, the Foundation was able to award 63 scholarships totaling \$68,580 to graduating Arlington High School seniors. This is only possible as a result of support from YOU and others like you. In 2023, we hope to touch the lives of an even larger number of our students!

### To accomplish this, we're asking for your support again!

The Arlington Education Foundation provides funding for over 45 different scholarship funds through the generous donations from individuals and business donors. A list of these scholarships, along with a general description of each, is included with this mailing. The selection criteria include: scholastic achievement, need, community service, special talents, field of interest, goals, etc. Most of our scholarships are application-based but several are determined based a nomination process.

The applicants for our scholarships are incredible young men and women from diverse backgrounds and experiences. Their achievements in high school are indicative of their future success in college. Their plans for the future will undoubtedly impact the world in which we live.

Won't you help create a brighter future for a student by contributing today to this important cause? This year, **our goal is to award at least \$70,000** to deserving students. Your donation can go toward our general scholarship fund or you may indicate which of the specific scholarships you wish to support. All contributions are tax-deductible and truly appreciated. Please don't hesitate to call (845) 486-4460, ext. 20156 with any questions.

Sincerely,

MaryBeth Kaminsky  
Executive Director
