March 2021

Dear Families:

As the excitement builds in your household in preparation for your child's entrance into kindergarten, our staff is planning and looking forward to providing a warm, exciting and enriching experience for your child.

Our full-day kindergarten program provides students with a strong foundation for building skills in all subject areas. Students become mathematicians as they learn about numbers, shapes, and data; scientists as they study the weather, living things, and states of matter; engineers as they use their math, science, and creative thinking skills to solve problems; social scientists as they explore their school community; readers as they grow word-solving super powers; and writers as they tell their stories to affect the world around them. Students develop their artistic and musical skills as well through a variety of experiences that support their creativity. We are looking forward to working in partnership with you to provide your child with the best possible educational opportunities and experiences.

In order to minimize contact and keep families and staff members safe from COVID-19, the Arlington Central School District will be conducting an online Kindergarten pre-registration for 2021-2022 school year.

The online pre-registration includes answering questions in our pre-registration portal, completing fillable registration documents, and then uploading them into the portal. Once your online pre-registration is complete, you will be contacted by the school in your attendance zone to finalize your registration. We will schedule an appointment for you to bring in your child's original birth certificate, your I.D. and any other official documents that must be verified in order to register your child for school.

If you have any questions, please send an email to Registration@acsdny.org.

We look forward to getting to know your child this fall. I would like to wish you and your child a most rewarding, fun and exciting experience surrounded by the joy of learning.

Sincerely,

Lorenzo Licopoli, Ph. D.
Interim Superintendent of Schools

Our mission is to empower all students to be self-directed, lifelong learners, who willingly contribute to their community and lead passionate, purposeful lives.
