Sci-Art - Make Your Own Grades K - 2

Mrs. Marjorie Teator

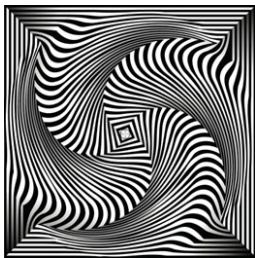

Learn science skills to create your own fun metallic therapy putty. Be amazed by building a maze game with shrinky dink and magnets. See how you can paint with salt, oil and magnets.

Make scratch off art, build a kaleidoscope and more. The goal of this class is to teach skills to help you make your own fun now and in the future. Students should bring any size clean styrofoam trays, paper towel tubes, and empty cereal boxes. A \$3 materials fee is due to instructor on the first day of classes.

\$98 ♦ Course #GA2 ♦ T - F ♦ 7/6 - 7/9

Optical Illusions I Grades 3 - 6

Ms. Donna Colvin

Art is all about illusion. Simple lines and shapes are used to create spectacular designs and images creating optical illusions. These tricks or illusions are based on scientific facts in how the eyes and the brain relate to each other. You'll be able to fool your friends

and family using these artistic capers. Students should bring any size clean styrofoam trays, paper towel tubes, and empty cereal boxes. A \$2 materials fee is due to instructor on the first day of classes.

Optical Illusions I

\$112 ♦ Course #CA2 ♦ M - F ♦ 7/12 - 7/16

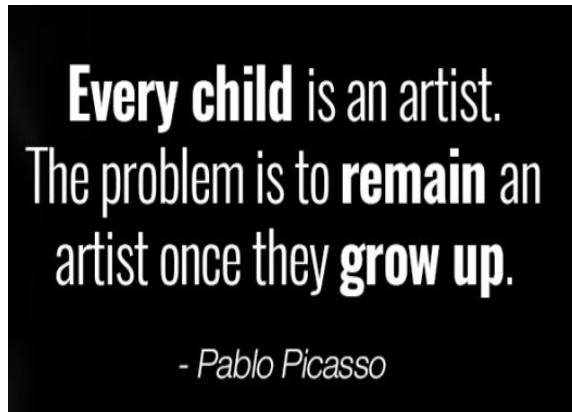

Optical Illusions II Grades 3 - 6

Ms. Donna Colvin

After taking Optical Illusions I, you now have the basics of visual illusion. You will now expand on the simple lines and shapes used in optical illusion to create more complex looking illusions. You will be designing OP Art. You will also discover how to create reversing faces, 3D lettering and shadowing to create form. Students should bring any size clean styrofoam trays, paper towel tubes, and empty cereal boxes. A \$2 materials fee is due to instructor on the first day of classes.

Summer Story Time

Grades K - 1

Mrs. April Meyer

Campers will read, enjoy games and crafts associated with the book of the day. This hands-on approach will stimulate reading skills and creativity. At the end of the week, campers will take home a variety of projects. Bring a pencil case with glue bottle, crayons, markers, and kid's scissors, folder, snack, water bottle, and baby wipes.

\$112 ♦ Course #AA5 ♦ M - F ♦ 6/28 - 7/2

Fantasy Adventures

Grades 3 - 5

Mr. Dan Longarino

Get a taste of fantasy writing with a trip to Fantasy Island. Here you will be creating your own fantasy characters with wild traits and appearances that would never exist in the real world! All of your characters have found themselves stranded on Fantasy Island. How will they interact with each other? Will they stay or escape? Will different characters join up like Marvel's Avengers? Answer all these questions by creating your own piece of literature; a hard covered book you will bring home with memories from your trip to Fantasy Island. Come and join us as we exercise our creativity, learn about the writing process and have a lot of fun. See you there!

Zines!

Grades 6 - 8

Bitesize Publications for Big Ideas!

Mrs. Cat Sutton

What is a ZINE? In simple terms, it's a mini hand-made magazine. Think pictures, poetry, lists, ideas, whatever you're into, you can fill a ZINE with it! Do you have big ideas about Anime? Fill a ZINE with your favorite Anime art, characters, books and shows! Obsessed with sloths? Make a Zine to show the world their cuteness! Have strong feelings about environmentalism? Make a Zine to share your thoughts with the world! Cut out pictures, add your own art, throw a collage in, the creativity is in your hands. At the end of the week, each student will leave with a copy of their own Zine, as well as one of everyone else in the class. If you can dream it, you can ZINE it! Students should come to class with their favorite art supplies, a glue stick, scissors, and anything they'd like to cut or add to their Zine.

Intro to Computer Coding Grades 3 - 5

Ms. Jacquelyn Stevens

Learn the basics of computer coding using the program Scratch. Students will learn how to use an algorithm, write code using block code methods, and be given opportunities to express themselves on the computer as they learn how to make games, short movies, and images, and complete a project of their choice on Scratch workspace. Students should bring their Chromebook, notebook, and pencils.

Summer Science Fun

Did you know that science and math make your summer fun?

Do you know how to make a hopscotch board?

Measure, draw, estimate how far you can throw, how long can you balance on one foot?

Can you plant flowers?

Watch seeds sprout and then turn into flowers

Do you know how to make and fly a kite?

Using dowels and light weight cloth, string and tape...

Can you make a bubbles solution?

Using water, dishwashing liquid, corn syrup – let it sit overnight...

Can you make bubble wands?

You can make them out of pipecleaners, cans that are opened on both ends, plastic hangers

Look up at the night sky and see the stars and constellations.

Summer is a great time to watch the evening skies and see views of Hercules, Sagittarius, Cygnus and Lyra and more.

Make smores

What makes a marshmallow melt and how does it melt the chocolate?

CRASH COURSE ENGINEERING Grades 4 - 8

Ms. Caroline Borum

This course is designed to offer challenging engineering concepts, taking children's natural curiosity and applying it to STEM (Science Technology Math & Engineering) by having kids take on the role of an engineer for the week. Participating students will learn how the world works by exploring the STEM fields with a focus on engineering, through fun, hands on building activities and projects. Imagination and intrigue are the only prerequisites for this course. Bring a pencil case with crayons, markers, pencils. All other materials included in course fee.

- \$120 ♦ Course #CS4 ♦ M - F ♦ 7/12 - 7/16

Whacky Numbers

Grades K - 2

Ms. Caroline Borum

Challenge your inquisitive mind in this all-encompassing math madness week. Calculate. Manipulate. Find your logic. Decode. Play games. Build projects. Improve your math aptitude! To infinity and beyond! Classes are designed age appropriate. Bring a pencil case with crayons, markers, pencils. All other materials included in course fee.

- \$120 ♦ Course #DS4 ♦ M - F ♦ 7/19 - 7/23

Mad Science is a leading STEM (Science, Technology, Engineering, and Math) enrichment provider. Their unique, hands-on science programs are as entertaining as they are informative. Fostering a love for math and science at a young age will give the confidence that children need to be successful in these areas in the future. All materials will be provided. Just wear comfortable clothes and sneakers. Bring a backpack, water bottle, snack, notebook, pencils and get ready to have fun exploring. For students grades 2 - 5

NASA: Journey Into Outer Space Grades 2 - 5

Kids start in the Earth's atmosphere and end up in the stars in this super sampler of space science. This voyage of discovery will explore planets, moons, comets, and other phenomena in our solar system. Come investigate our sun, and other stars and the galaxies they form. Build a Mad Science rocket and then design, build and launch your own version. Learn about the challenges of living in space and undergo astronaut training. Work with lenses and build a telescope. Discover technologies developed for use in outer space while navigating a laser maze. Campers will have lots of projects to make and take home including two rockets, space copter, meteorological station, star chart, and a telescope. Material developed by Mad Science in partnership with NASA.

\$170 ♦ Course #AS1 ♦ 6/28 - 7/2

Science Explorers Grades 2 - 5

This is Mad Science's super science sampler - explore the world of science with a different set of fun science topics each day. Campers will experiment with super-strong magnets and have a "hair-raising" experience while learning about electricity. They will play tricks on their senses by experimenting with their taste buds and manipulating sound waves. Kids will investigate light waves, explore the properties of color, and then baffle their eyes by exploring optical illusions. They will also play with cool science toys and figure out how they work and analyze the amazing properties of slime. Projects that campers will make and take home include a periscope, an electric Newtonian color wheel, floating magnets, a static electricity stick, a superball, a color-changing "heat sheet", and more!

\$170 ♦ Course #ES1 ♦ 7/26 - 7/30

For Grades 2 – 5, the most frequent reaction to the chemistry demonstrations in this camp is “Wow!” – one simple word with great experiences behind it. During this action-packed camp kids explore chemistry in a playful, safe manner. With spectacular hands-on activities and amazing demonstrations, kids will both learn *and* apply the concepts, tools and techniques of real chemists. Campers will start by learning real lab techniques and safety procedures, and then use these to mix crazy concoctions and chemical combos experimenting with super-sticky-stuff, explore glow-in-the-dark technology, mix potions, and grow crystals! Students will learn the real chemistry behind **slime** and make several different types. Each camper will take home a full set of Mad Science lab gear that includes a graduated cylinder, a beaker, a flask, an experiment tube, pH paper, a thermo-color cup, and more! **Class will meet T-Th from 9 - 1pm and on Friday from 9am - Noon**

\$170 ♦ Course #GS2 ♦ T - F ♦ 7/6 - 7/9

Secret Agent Lab Grades 2 - 5

Calling all agents! This camp is part forensics and part “spy science”. Step into the shoes of a detective—uncover the science involved in evidence gathering and analysis. Students will create, collect, and analyze evidence and discover what skills are necessary as a crime scene lab technician. They examine clues and get hot on the trail of a culprit, and then connect the dots using science to help solve a crime in a hands-on investigation. From edible messages and decoding clues, students will have the opportunity to check out some of the skills that spies must master as they journey into the world of espionage. Take home projects include an ultraviolet Fingerprint Finder kit, Spyglasses that let you secretly watch people who are behind you, Spy-noculars, a Secret Code Breaker, and an Inspecti-kit for evidence collection.

MOVE!

These are NOT your average PE classes! Students will explore various movement activities including (but not limited to) sports, games, fitness, dance, etc. Emphasis will be placed on inclusive participation, health and fun! Classes will be held inside and out and activities will be age appropriate. Wear clothes you can move in and sneakers. Bring a healthy snack, sunscreen, bug spray and plenty of water.

Horseback Riding

 Grades 1 - 8

For those students who have little or no experience, lessons given will focus on balance and basic mechanics of riding. Student will also be given basic instruction on the skill of horsemanship and horse care including how to groom, tack up and take basic care of their horses. Participants should wear

heeled boots and long pants and bring a bike helmet, water and healthy snacks. Learn to ride and have fun. All classes will be held at Pond View Farm, 40 Perkins Ln, LaGrangeville, NY.

COLOR GUARD

Mini Color Guard Camp

Grades 5 - 8

Mrs. Diane Sizemore

Color Guard is a "sport of the arts" activity where members move, dance, spin; flags, rifles and sabers, and manipulate props to recorded music. It combines the grace and emotion of a dancer with the stamina and agility of an athlete to create a short theatrical type performance with a stage area, props and costumes.

Participants will develop basic performance and guard skills. They will work collaboratively to create a "show" and then perform for an audience on the last day. All necessary equipment, costumes and props will be provided. Wear sneakers or jazz shoes, Tshirt or tank tops and shorts, capris or yoga pants. Bring extra water, small towel, and snack. Experienced spinners bring glove and personal equipment. Experienced guard members will develop leadership skills and be involved in show choreography and design. Class held at LaGrange MS

Arlington Summer Kids is in its 6th year!

We have brought interactive, engaging, nurturing, educating, and fun classes to the Arlington community for over 1,600 students. Every year we add new intriguing classes as well as some of our favorites.

We are excited to bring our program back to AHS. Please be sure to follow the rules and regs of the program including wearing masks, physical distancing, handwashing, and keeping your supplies with you. If everyone follows the rules, we will be able to have a safe, fun experience!

Parents will have to complete a health form when they drop off their students to their class(es) (temperature check, no COVID symptoms, haven't been in contact with anyone who has had symptoms, and haven't tested positive, etc). This is a state mandate. Students will not be permitted to the class unless it is filled out. We look forward to seeing our campers, and new faces, again! Register by May 24 to get your Summer Kids Shirt!

***Come and have a great experience!
We look forward to seeing YOU!***
