ParentSquare

We are excited to announce that Arlington is adopting a new mass communication system called ParentSquare. This will replace our current SchoolMessenger system. W**e will fully transition to ParentSquare on October 1.**

We will be using ParentSquare to send important district information, including alerts for school closings and delays. Some of our teachers will be using ParentSquare to communicate with families.

Why the switch? ParentSquare is easy to use, has some excellent features, and will consolidate district, school, and classroom communications within one App.

ParentSquare provides a safe way for district administrators, school principals, teachers, and staff to:

- Send and receive school and class information
- Share pictures and files
- See calendar items
- Schedule parent-teacher conferences
- and much more . . . all in one centralized place!

District and school, and classroom communication will be sent to your computer or phone via email and/or text. For even more convenience, download the ParentSquare app (available for free for Apple and Android devices).

Activate your Account
You will receive an invitation email or text to join ParentSquare. Please click the link to activate your account. It takes less than a minute.

You can use ParentSquare on any device. You can download the free mobile app or use the desktop version at www.parentsquare.com.
