As a student club, we do our best to minimize errors and capture the spirit of the class of 2025. We have deadlines throughout the school year and corrections are very costly if information is not given to us in a timely manner. We appreciate your support and patience as our staff is learning the art of publishing and the dedication and commitment that goes into such an important job. Though Walsworth is a professional publishing company, devoted to only yearbooks, the book as a whole is not done by professionals but by students.
