

## Strategies for Generating Personal Narrative Writing

1. Try a strategy.

2. List story ideas.

3. Write one!

Think of a person  
who matters  
to you.

Think of  
first times,  
last times, or  
times you realized  
something.

Think about a  
place that matters.

Think of a  
strong feeling.

Notice small  
moments and  
capture them  
in entries.

Read another  
author's words to  
spark your own  
story ideas.
