

WNB #2: Roger's Letter

Left on his own , Roger (from *Thank you M'am*) gets in trouble at the beginning of the story. What do you think Roger will be like when he is on his own ten years after his encounter with Mrs. Jones? What might he write in a letter to her? Compose a letter from Roger to Mrs. Jones in which you describe what you (Roger) have been doing for the past ten years. How did that experience change your personal perspective on life? Why is Roger writing her after all these years? How did Mrs. Jones influence Roger's life after their encounter?

****The letter should be in 1st person point of view, from Roger**
