

WNB #1 - THE 10TH GRADE YEAR

You have now survived one week of your 10th grade year. How has this year been different from last year, already? How do you think it might or can be different from last year? What do you plan to do the same, and what do you plan to do differently from last year? Share one-two things you were happy with last year, and one-two things you want to change from last year.

Are you planning on being involved in a school sport or club this year? If so, what club/sport are you interested in learning more about?
