

ARLINGTON CENTRAL SCHOOL DISTRICT

ELLEN McDONNELL, Ed.D., Director of Innovative Technology
CAO • 144 Todd Hill Road • LaGrangeville, NY 12540

Dear Arlington Families,

Welcome to the 2020-2021 school year! We are excited to roll out two technology initiatives that should improve communication and access to learning this year.

Student Email Accounts

We have activated student email accounts for all students. The student email address format will remain username@acsdny.org, just like they have been using for Google Classroom and computer logins in the past. The password is the same as well. Google Classroom already knows these student email addresses, so communication should be seamless through Google Classroom.

Students will log into portal.office.com with their credentials to access email.

Important Note:

- Grades **K-8** are **restricted from** receiving incoming and sending outgoing **external communication**. They can only exchange email with other Arlington CSD users.
- Grades **9-12** are **currently allowed external communication**.

Google Classroom Pre-Populated with Classes

We have activated a link between SchoolTool and Google Classroom so that all students are pre-populated in Google Classroom for their courses. When students go to classroom.google.com on the first day of school, they should see all of their classes. If not, they should use their new email (login at portal.office.com) to email their teacher and ask to be added.

Login credentials

Student login credentials can be found in the Parent Portal. The student's username is in the Eye Color field and the password is in the Hair Color field. Please note: you need to add the @acsdny.org to the username to login.

PERSONAL INFORMATION	
	FIRST: Eddie
	MIDDLE: Wolfgang
	LAST: Munster
	GENDER: Male
	DOB: 8/2/1953 (67 yr 0 mo)
	1ST LANGUAGE: English
	EYE COLOR: emunster Arlington Network username
	HAIR COLOR: s0131313 Password for Google, Office and Arlington
	EMAIL: emunster@acsdny.org Google and Office username

We hope these initiatives assist you in the start to the school year.

Regards,
Dr. Ellen J. McDonnell
Director of Innovative Technology
